

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Brass Type

THE advantages of Brass Type can only be appreciated where special requirements necessitate severe usage. While the cost is considerably in excess of Metal Type, made necessary by the expensive method of manufacture, yet it will be found much cheaper in the end, as its lasting qualities are ten times greater.

On the following pages are displayed some designs cast in Brass which are selected both on account of their substantial and durable character and because they have proven most popular with Bookbinders, Boxmakers and Manufacturers of Advertising Specialties.

Brass Type can be made to any height required, but unless otherwise specified is made regular type high.

Figures are shown for only one size of each face, but are furnished for each size shown in this book, except in the case of faces indicated by asterisk. A sufficient amount of Spaces and Quads is included in each font.

The cost of Brass Type is governed entirely by the price of each character, as per the following table:

18 Point No. 12418

18 Point Rule

Rule larger than 12 Point is not called for in regular fonts in sufficient quantities to make it advisable to carry regular scheme fonts in stock. It is sold by the piece according to prices in Tables H and I on page 83.

As a basis for figuring we give below schemes for fonts of 18 Point Rule, weighing approximately 3, 5 and 10 pounds.

3 POUND FONT

1 to 4 cms by one-half cms—4 pieces each.
5 to 14 cms by cms—2 pieces each.

The above pieces (see Tables H and I on page 83), amount to \$4.44.

5 POUND FONT

1 to 4 cms by one-half cms—4 pieces each.
5 to 10 cms by cms—3 pieces each.

11 to 18 cms by cms—2 pieces each.
The above pieces (see Tables H and I on page 83), amount to \$7.05

10 POUND FONT

1 to 4 cms by one-half cms—4 pieces each.
5 to 18 cms by cms—3 pieces each.

19 to 25 cms by cms—3 pieces each.
The above pieces (see Tables H and I on page 83), amount to \$13.21.

Miters (18 Point), $2\frac{1}{2}$ cms pica long inside, would amount to 72 cents per set and 5 cm miters \$1.04 per set, figured from Table H (using outside measure) and the charge for mitering in Table F.
